Software Engineer | ReactJS | React Native | NextJS | MongoDB |  
Firebase | CSS | HTML5 | ReactBootstrap  
Karachi Division, Sindh, Pakistan

## Summary

I am a passionate Software Engineer with extensive experience in building dynamic and responsive web and mobile applications. My expertise lies in modern JavaScript frameworks such as React.js, React Native, and Next.js, which I use to create seamless user experiences. I am also skilled in managing backend operations using MongoDB and Firebase, enabling robust and scalable application architectures.

In addition to my technical skills, I am proficient in HTML, CSS, and Bootstrap, allowing me to craft clean, user-friendly interfaces that are both functional and aesthetically pleasing. I am comfortable working with version control systems like GitHub, ensuring smooth collaboration and efficient code management in agile environments.

I am always eager to learn new technologies and stay up-to-date with industry trends. I thrive in collaborative settings, leveraging my problem-solving skills and attention to detail to deliver high-quality software solutions that meet client needs and drive business success.

Let's connect if you are looking for someone with a solid foundation in software development, a dedication to innovation, and a passion for crafting exceptional digital experiences!
